PROFESSIONAL SUMMARY

As a technical leader, I make architectural decisions, mentor developers with personalized learning paths, and bridge design, development, and DevOps teams to deliver production-ready solutions.

I build accessible, scalable web applications. I've delivered 20+ projects, made key architectural decisions for Vue.js applications, and built reusable component systems that power multiple production products.

EXPERIENCE

Front End Team Leader

Apr 2021 – Present

FutureFace

Hybrid

- Delivered 20+ projects, including web apps and products across multiple domains.
- Built 10+ admin panels (Static and Vue) from scratch.
- Created Vue project structures and reusable components (forms, datatables, modals, wizards).
- Integrated static HTML with backends (.NET, SharePoint, Umbraco).
- Implemented CI/CD pipelines for build and release.
- Developed and deployed a custom WordPress portal theme.
- Built and led a frontend team of 5+, including training and mentorship.

Senior Front End Developer

Jan 2019 – Jan 2021

Digital Investors

Remote

- Converted UI to static, responsive, pixel-perfect websites.
- Developed web applications using Nuxt.js.

UI / Front End Team Leader

Oct 2019 – Dec 2019

Baltoe

Product Based

- Designed Baltoe mobile app UI and streamlined doctors' admin panel.
- Developed Baltoe web application, fully integrated with Laravel backend.
- Optimized UI post-integration, fixing issues and improving usability.

Senior UI / Front End Developer

Oct 2018 – Jan 2019

Q8intouch

Remote

- Designed 5+ web & mobile UIs (Adobe XD).
- Converted designs into responsive websites.
- Integrated UI with backend APIs, reducing QA defects.

UI Designer / Developer

Jun 2017 – Oct 2018

FreeTech

Remote

- Created project UIs in Photoshop with clean, user-friendly design.
- Developed and integrated web applications with Laravel backend.
- Configured and customized WordPress e-commerce themes for client needs.

UI Designer / Developer

Jun 2015 – Jan 2017

SawaSmart

Remote

- Designed and developed 2 products (SawaCar, SawaTruck), delivering full UI and functionality.

UI Designer / Developer (Training)

May 2015 – Jun 2015

Zoser AG

- Redesigned Odoo ERP admin panel with improved layout and custom components.
- Built company website and optimized responsive email templates for branding.

EDUCATION

Helwan University

Cairo, EG

Bachelor of Computing and Artificial Intelligence

TECHNICAL SKILLS

Programming Languages: JavaScript, HTML, CSS, SCSS, Pug.js

Frameworks & Libraries: Vue.js, Nuxt.js, Vuetify, Vite, Tailwind, Bootstrap, Gulp.js, Angular

Tools & Platforms: Git, Azure CI/CD, Figma, WordPress, SharePoint, Umbraco, SQL Server, MySQL

KEY PROJECTS

Anma (Online Sessions & Lectures):

Led a team of 3 developers to build a Vue.js web portal and admin panel, fully integrated with Zoom for live sessions.

Robox (Attendance Management): Migrated legacy .NET MVC Razor Pages to a modern Vue 3 web application and managed deployment via Azure CI/CD pipelines.

Impactor (Project Management): Upgraded codebase from Vue 2 to Vue 3, optimizing performance and developing 30+ reusable components to streamline future projects.

Saudi NDF Council System: Directed a team of 5 developers to deliver a modern Angular-based web application.
